CONCRETE PLANTER 196 exposed aggregate

Flower planter made out of high-strength concrete and natural aggregate. The aggregate structure is composed of natural marble or granite stones with specific dimensions and the possibility of combinations in different colors. The surface is embossed and treated with a special protective coating. The concrete is reinforced and fiber strengthened. The decoration with chrome- nickel strip gives elegance and style. The concrete planter, with its delicate ovals, is especially practical and suitable for creating flower alleys in parks, as well as a "green" anti-parking ...
