METAL BENCH 97

Lightweight and functional model metal bench without backrest. A combination of certified wood and high-quality metal. The convenience of having access on both sides makes it suitable for busy urban areas. Electrogalvanized and powder coating protects the metal from corrosion and increases its performance. A special coating is applied to the planks, which protects them from aggressive weather conditions and prolongs their life. The elements connecting the individual structures are from stainless steel. Metal and wooden components have different color combinations. ...
