CONCRETE BENCH 322 PR Resysta polished aggregate

Bench with backrest made out of high-performance concrete and wood . The concrete is with homogenic aggregate structure, reinforced and fiber strengthened. The aggregate structure is made out of natural marble or granite stones. They are of a specific size and can be combined in different colors. The aggregate surface is finely polished and creates the feeling of a velvety touch. The additional treatment of the surfaces with a protective coating makes the product even more resistant to aggressive weather conditions and reduces the deposition of contaminants. The m ...
